The HARTING eCatalogue / eShop can be found on our homepage at www.HARTING.com or at the direct link www.eCatalogue.HARTING.com.

The HARTING e-Catalogue is your platform for conveniently selecting individual products as well as configuring complete solutions. Our comprehensive product pages provide you with all necessary technical information and CAD files in various formats for downloading. You may also contact our technical sales department directly.

Find out about **product innovations and news** on the start page of the HARTING e-Catalogue or go directly to www.product-news.HARTING.com.

Registered users can take advantage of MyHARTING to check on availability or prices, and to place or track their orders. Here, your customized "HARTING history" provides you with a list of your inquiries, quotations and more.

Sign up now for your free e-Catalogue account at HARTING!

www.eShop.HARTING.com

Product samples: Fast-track delivery to your desk, free of charge

The new free express sample service in the HARTING eCatalogue allows customers to order samples immediately, easily and completely free of charge. A broad selection is now available. If a product is unavailable, the system offers alternative products with similar features that can be requested at a mouse click.

The free samples are shipped within 24 hours at no cost to you. This service enables tremendous flexibility, especially in the design phase of projects.

General information

It is the customer's responsibility to check whether the components illustrated in this catalogue also comply with different regulations from those stated in special fields of applications.

We reserve the right to modify designs or substance of content in order to improve quality, keep pace with technological advancement or meet particular requirements in production.

No part of this catalogue may be reproduced in any form (print, photocopy, microfilm or any other process) or processed, duplicated or distributed by means of electronic systems without the prior written consent of HARTING Technology Group, Espelkamp. We are bound by the German version only.

Transforming customer wishes into concrete solutions

The HARTING Technology Group is skilled in the fields of electrical, electronic and optical connection, transmission and networking technology, as well as in manufacturing, mechatronics and software creation. The Group uses these skills to develop customized solutions and products such as connectors for energy and data-transmission/data-networking applications, including, for example, mechanical engineering, rail technology, wind energy plants, factory automation and the telecommunications sector. In addition, HARTING also produces electro-magnetic components for the automobile industry and offers solutions in the field of housing technology and shop systems.

The HARTING Group currently comprises 58 sales companies and production plants worldwide employing a total of about 5,300 staff.

HARTING Subsidiary

HARTING Representation

We aspire to top performance.

Connectors ensure functionality. As core elements of electrical and optical termination, connection and infrastructure technologies, they are essential in enabling the modular construction of devices, machines and systems across an extremely wide range of industrial applications. Their reliability is a crucial factor guaranteeing smooth functioning in the manufacturing area, telecommunications, applications in medical technology – in short, connectors are at work in virtually every conceivable application area. Thanks to the ongoing development of our technologies, our customers enjoy investment security and benefit from durable, long-term functionality.

Wherever our customers are, we're there.

Increasing industrialization is creating growing markets that are characterized by widely diverging demands and requirements. What these markets all share in common is the quest for perfection, increasingly efficient processes and reliable technologies. **HARTING** is providing these technologies – in Europe, the Americas and Asia. In order to implement customer requirements in the best possible manner, the **HARTING** professionals at our international subsidiaries engage in up-close, partnership-based interaction with our customers, right from the very early product development phase.

Our on-site staff form the interface to the centrally coordinated development and production departments. In this way, our customers can rely on consistently high, superior product quality – worldwide.

Our claim: Pushing Performance.

HARTING provides more than optimally attuned components. In order to offer our customers the best possible solutions, on request **HARTING** contributes a great deal more and is tightly integrated into the value-creation process. From ready-assembled cables through to control racks or ready-to-go control desks. Our aim is to generate maximum benefit for our customers – with no compromises!

Quality creates reliability – and warrants trust.

The **HARTING** brand stands for superior quality and reliability – worldwide. The standards we set are the result of consistent, stringent quality management that is subject to regular certifications and audits.

EN ISO 9001, the EU Eco-Audit and ISO 14001:2004 are key elements here. We take a proactive stance towards new requirements, which is why **HARTING** is the first company worldwide to have obtained the new IRIS quality certificate for rail vehicles.

HARTING technology creates added value for customers. Technologies by HARTING are at work worldwide. HARTING's presence stands for smoothly functioning systems powered by intelligent connectors, smart infrastructure solutions and sophisticated network systems. Over the course of many years of close, trust-based cooperation with its customers, the HARTING Technology Group has become one of the leading specialists globally for connector technology. We offer individual customers specific and innovative solutions that go beyond the basic standard functionalities. These tailored solutions deliver sustained results, ensure investment security and enable customers to achieve significant added value.

Opting for HARTING opens up an innovative, complex world of concepts and ideas.

In order to develop and produce connectivity and network solutions serving an exceptionally wide range of connector applications in a professional and cost-effective manner, HARTING not only commands the full array of conventional tools and basic technologies. Above and beyond these capabilities, HARTING is constantly harnessing and refining its broad base of knowledge and experience to create new solutions that also ensure continuity. To secure its lead in know-how, HARTING draws on a wealth of sources from its in-house research and applications.

Salient examples of these sources of innovative knowledge include microstructure technologies, 3D design and connection technolo-

gy, high-temperature and ultrahigh-frequency applications that are finding use in telecommunications and automation networks, in the automotive industry, or in industrial sensor and actuator applications, RFID and wireless technologies, in addition to packaging and housing made of plastics, aluminum and stainless steel.

HARTING overcomes technological limitations.

Drawing on the comprehensive resources of the group's technology pool, HARTING devises practical solutions for its customers. Whether this involves industrial networks for manufacturing automation, or hybrid interface solutions for wireless telecommunication infrastructures, 3D circuit carriers with microstructures, or cable assemblies for high-temperature applications in the automotive industry - HARTING technologies offer not only components, but comprehensive solutions attuned to individual customer requirements and preferences. The range of cost-effective solutions covers ready-to-use cable configurations, completely assembled backplanes and board system carriers, as well as fully wired and tested control panels.

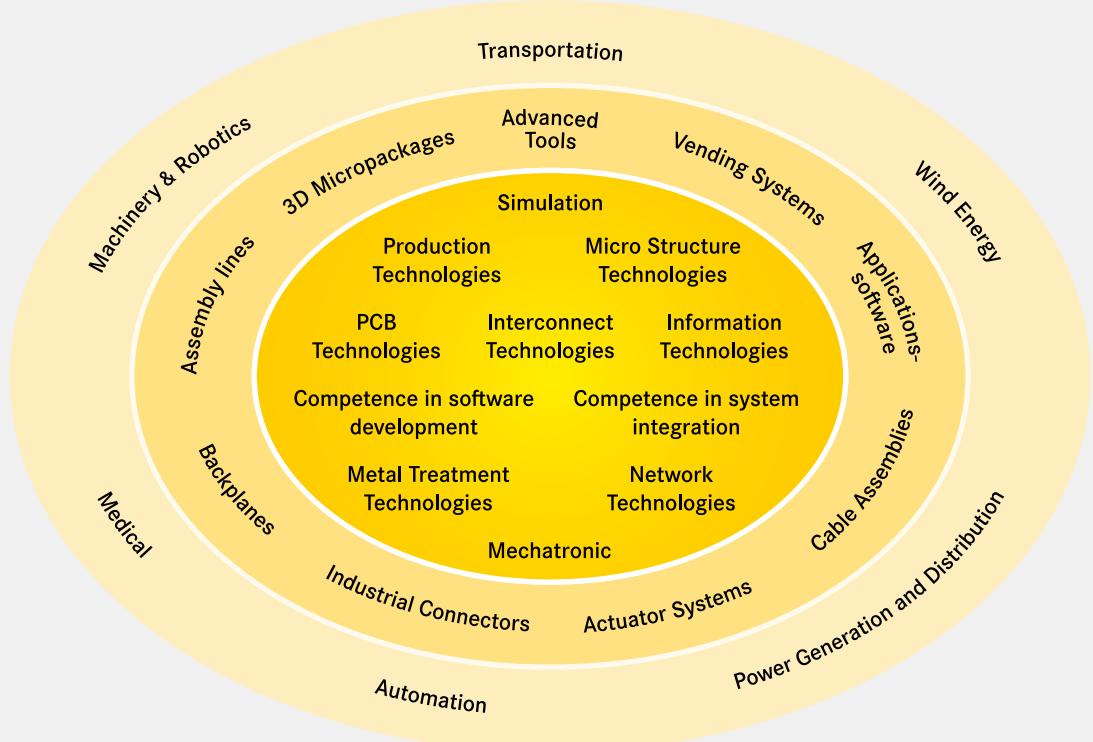

In order to ensure the future-proof design of RF and EMC-compatible interface solutions, the central HARTING laboratory (certified to EN 45001) employs simulation tools, as well as experimental, testing and diagnostics facilities all the way to scanning electron microscopes. In addition to product and process suitability considerations, lifecycle and environmental aspects play a key role in the selection of materials and processes.

HARTING's knowledge is practical know-how that generates synergy effects.

HARTING commands decades of experience with regard to the applications conditions involved in connections in telecommunications, computer, network and medical technologies, as well as industrial automation technologies, e.g. in the mechanical engineering and plant engineering areas, in addition to the power generation industry and the transportation sector. HARTING is highly

conversant with the specific application areas in all of these technology fields. In every solution approach, the key focus is on the application. In this context, uncompromising, superior quality is our hallmark. Every new solution found invariably flows back into the HARTING technology pool, thereby enriching our resources. And every new solution we go on to create will draw on this wealth of resources in order to optimize each and every individual solution. HARTING is synergy in action.

Contents	Page
Han® Q 3/4 Crimp.....	New 1.2
Han® M12 module	New 1.5
Han® 300 A module	New 1.8

Han® 1A Protection covers	New 1.45
Han® 1A Adapter	New 1.47
Han® F+B	New 1.48
Battery crimping tool for Han® standard contacts.....	New 1.52

Features

- Han® C power contacts
- Han D® signal contacts
- Finger safe male and female contacts
- Leading PE crimp contact
- Suitable for standard plastic hoods/housings or metal hoods/housings with additional PE terminating contact on the hoods/housings from the Han-Compact® series

Technical characteristics

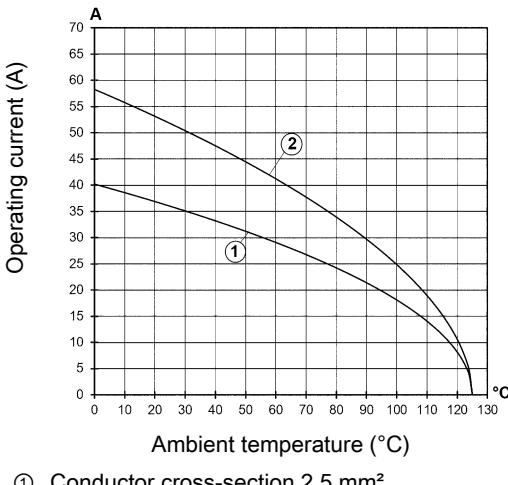

Number of contacts	3
further contacts	+ 4 additional signal contacts
Rated current	40 A
Rated voltage conductor-earth	400 V
Rated voltage conductor-conductor	690 V
Rated impulse voltage	6 kV
Pollution degree	3
Rated current (signal)	10 A
Rated voltage (signal)	250 V
Rated impulse voltage (signal)	4 kV
Pollution degree (signal)	3
Insulation resistance	>10 ¹⁰ Ω
Contact resistance	≤1 mΩ, ≤3 mΩ
Limiting temperature	-40 ... +125 °C
Mating cycles	≥500
Material (insert)	Polycarbonate (PC)
Colour (insert)	RAL 7032 (pebble grey)
Material (contacts)	Copper alloy
Material flammability class acc. to UL 94	V-0
RoHS	compliant with exemption

Derating

Current carrying capacity

The current carrying capacity of the connectors is limited by the thermal load capability of the contact element material including the connections and the insulating parts. The derating curve is therefore valid for currents which flow constantly (non-intermittent) through each contact element of the connector evenly, without exceeding the allowed maximum temperature.

Measuring and testing techniques acc. to IEC 60512-5-2

Specifications and approvals

EN 60664-1
IEC 61984
DNV GL

Details

Contact resistance Han D® crimp contact: ≤ 3 mOhm

Contact resistance Han® C crimp contact: ≤ 1 mOhm

Crimping tools see chapter Han 90

Remarks on the crimp technique

Features

- D-coded Han® M12 version for Ethernet/Profinet applications
- Two separate data connections with 360° shielding in a single module
- Possibility to use different bus systems within one module, also D-coded and X-coded versions
- Significant reduction in required space by 50%
- Each Han® M12 insert can be preassembled and installed separately
- X-coded Han® 12 version for Ethernet applications up to 10 Gbit/s

Technical characteristics

Number of contacts further contacts	4, 8 + shielding
Rated current	4 A, 0.5 A
Rated voltage	32 V
Rated impulse voltage	0.8 kV

Number of contacts

810 A 50 V 0.8 kV 3
+ shielding

Han

Features

- Shielding bus separate from housing potential
- Usable for Megabit Ethernet cat. 5e
- Robust design
- Low wiring costs
- No installation effort

Technical characteristics

Number of contacts	8
further contacts	+ shielding
Rated current	10 A, 7.5 A
Rated voltage	50 V, 250 V
Rated impulse voltage	0.8 kV, 4 kV
Pollution degree	3
Transmission characteristics	Cat. 5, Class D up to 100 MHz
Data rate	10 Mbit/s, 100 Mbit/s
Contact resistance, shielding	≤100 mΩ
Limiting temperature	-40 ... +85 °C
Mating cycles	-40 ... +125 °C
Material (insert)	≥500
Material (shielding)	Polycarbonate (PC)
Colour (insert)	Liquid crystal polymer (LCP)
Material flammability class acc. to UL 94	Zinc die-cast, nickel-plated
	RAL 7032 (pebble grey)
	V-0

Specifications and approvals

Screw locking,
24 HPR

74 09 400 2454 110

Features

- IP65 in locked condition
- Suitable for snap-in latch and lever

Technical characteristics

Limiting temperature	-30 ... +90 °C
Degree of protection acc. to IEC 60529	IP65
Material (cover)	Polyamide (PA)
Colour (accessories)	RAL 9005 (jet black)
Material flammability class acc. to UL 94	V-0

Identification

Protection cover,
for male inserts,
09 10 012 300X,
Available as from Q3/2021

Protection cover,
for male inserts,

Features

- Toolless assembly of Han® contact inserts
- Practical and easy handling
- Compact design saves space
- Optional with and without strain relief
- Suitable for standard rail TS 35

Technical characteristics

Material (accessories) Polyamide (PA)
 Colour (accessories) Black
 Material flammability class acc. V-0
 to UL 94

Details

A Han® 1A configuration that only consists of inserts (with or without adapter 09 10 000 9911 / 09 10 000 9912) is an unenclosed connector according to IEC 61984. In this case protection against electric shock must be provided by the installation methods of the user.

10 A 400 V 6 kV 3

Technical characteristics

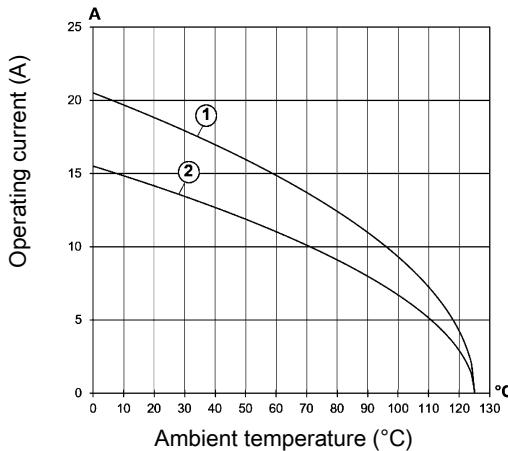

Number of contacts	17
Rated current	10 A
Rated voltage	400 V
Rated impulse voltage	6 kV
Pollution degree	3
Insulation resistance	>10 ¹⁰ Ω
Contact resistance	≤3 mΩ
Limiting temperature	-40 ... +125 °C
Mating cycles	≥500
Mating cycles with other HMC components	≥3000
Material (insert)	Polycarbonate (PC)
Colour (insert)	RAL 7032 (pebble grey)
Material (contacts)	Copper alloy
Material (accessories)	Polyamide (PA)
Colour (accessories)	Red
Material flammability class acc. to UL 94	V-0
RoHS	compliant with exemption compliant

Derating

Current carrying capacity

The current carrying capacity of the connectors is limited by the thermal load capability of the contact element material including the connections and the insulating parts. The derating curve is therefore valid for currents which flow constantly (non-intermittent) through each contact element of the connector evenly, without exceeding the allowed maximum temperature.

Measuring and testing techniques acc. to IEC 60512-5-2

Specifications and approvals

IEC 61984

Details

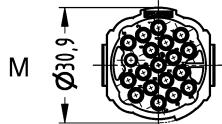

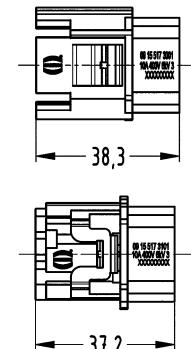

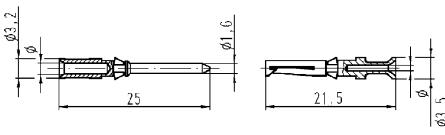

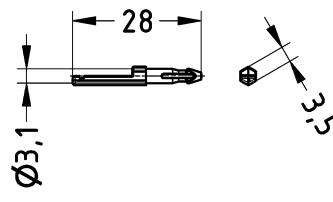

Crimping tools see chapter Han 90

Remarks on the crimp technique

The wire gauges mentioned in the catalogue refer to geometric wire gauges of cables.

Coding pin

Use of the coding pin prevents incorrect mating to other connectors of the same type. The male pin should be omitted from the opposing cavity in the male insert.

New products for modular PCB connectors.

PCB

HARTING har-modular® The new modular solution for your Board-to-Board application.

CREATE YOUR OWN!

Developers know this. A good idea for a new product fails because of the availability of suitable components. Several lifelines of data, power and signals are to be routed from one PCB to another and no supplier has a suitable connector ready on the shelf. A special solution can be developed, but it usually takes too long and the minimum order quantity is too large for worthwhile prototyping. So in the end it becomes a stopgap solution from the best fitting connector available. So why not simply invent a connector that developers can assemble as they need it? Exactly. We call it *har-modular®*. A connector that is perfectly tailored to the individual application and can be configured online from numerous modules, offering an almost infinite number of individual solutions. From batch size 1, developers can always find the right connection using the modular principle.

Any arrangement, no matter how innovative and creative, within a device design is no longer dependent on whether there is a suitable standard strip or variant. The developer adapts the connector to his requirements. Not the other way round.

har-modular®

**CREATE
YOUR
OWN**

3 steps to your individual connector

With the *har-modular®* online configurator, you can now find your individual solution even more easily and quickly. Every conceivable combination can be configured here in three simple steps.

STEP 1 - Which modules and how many?

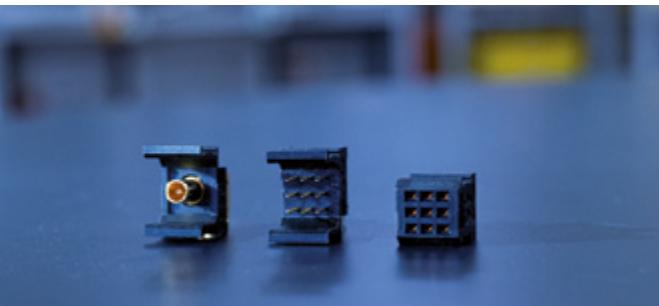

The *har-modular®* modular system offers modules for all three lifelines: power, signals and data. In the first step, you select the appropriate modules and their required number for your application.

The modules in detail:

Signal Modules

Two modules are available for the transmission of signals:

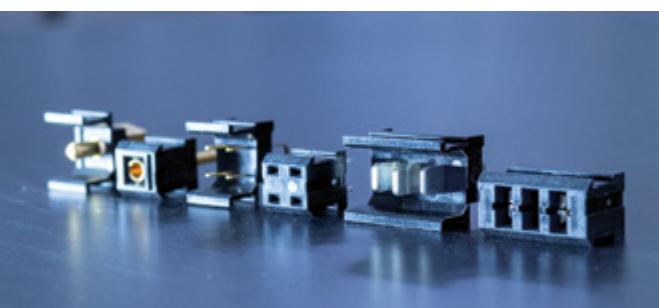

- 9 contacts with a maximum current of 2A/ contact
- 1 coax contact with 50 Ohm or 75 Ohm

Power modules

Three modules are available for the transmission of power:

- 1 contact with a maximum current of 40 A / contact
- 3 contacts with a maximum current of 15 A / contact
- 4 contacts with a maximum current of 6 A / contact

High-voltage modules

A module is available for the transmission of high voltage:

- 1 contact at a maximum of 2,800 V at 1.5 A

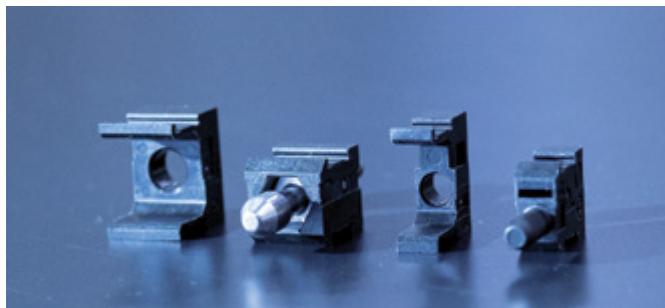

New products for modular PCB connectors.

PCB

STEP 2 - The guiding pin

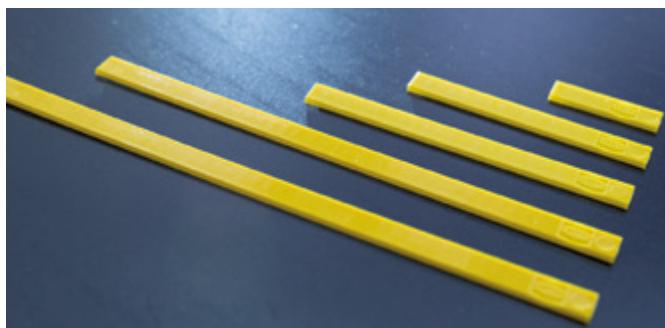

For the secure connection of all modules, each *har-modular®* connector requires two guide pins. Depending on your application, you can choose guide pins in plastic or metal. If you ask us, the best position for the guide pins is always the end of the connector. But any other position is also possible.

STEP 3 - The connecting rail

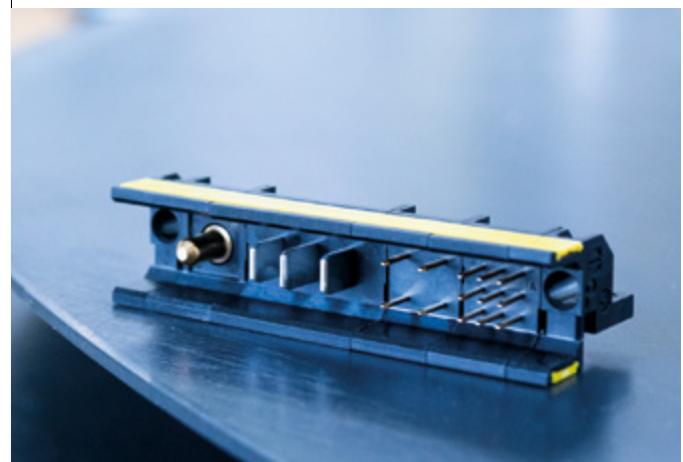

Select the appropriate yellow fastening rail for this step. It must have the same length as all the modules together. In the next step, take the mounting tool and put your modules side by side on the module. Depending on your modules, use the MALE or FEMALE side up. Now press the top edge of the mounting strip into the top slot of the module. Start this at one of the two ends and connect one module at a time. Do the same on the opposite side.

DONE!

All modules Modules can be freely combined in widths from 20 to 172 millimetres. The principle always remains the same. Select modules, select guide pins, insert connecting rails and the connector is ready. The position of the elements among each other is completely free and can be recombined again and again. In just a few steps, an absolutely customised connection solution is created for rack systems and PCB applications of all kinds.

Who needs a modular connector?

First and foremost, those users who cannot find the right solution for their application from the wide range of DIN 41612 connectors. Here, too, special solutions are possible, but not as quickly, and with *har-modular®* it is possible to respond even more specifically to every customer request. This also makes *har-modular®* the perfect solution for prototyping and small series. Here, the interface can be reconfigured quickly and developers are much freer in their design.

Good to know:

Of course, the *har-modular®* is suitable for pick&place, can be soldered on wave soldering systems as well as in the reflow process and arrives fully assembled at your premises from an order quantity of 200 pieces.

Technical characteristics

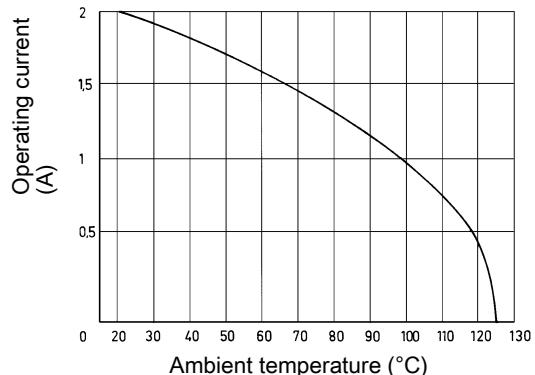

PCB	Contact spacing (mating side)	2.54 mm
	Rated current	2 A
	Test voltage U _{r.m.s.}	1 kV
	Insulation resistance	>10 ¹¹ Ω
	Contact resistance	≤20 mΩ
	Limiting temperature	-55 ... +125 °C (during reflow soldering max. +240 °C for 15 s)
	Mating cycles	≥500
	Clearance distance	1 mm in the module 1.9 mm to module edge
	Creepage distance	1 mm in the module 1.8 mm to module edge
	Termination length	3 mm, 4.8 mm, 4.5 mm
	Railway classification	F1/I2, acc. to NFF 16-101/102
	Performance level	1 acc. to IEC 60603-2

Male connectors Reflow soldering termination (SMT)

PCB

Technical characteristics

Contact spacing (mating side)	2.54 mm
Stacking height	3.25 mm
Rated current	25 A, 20 A, 18 A, 26 A, 21 A
Rated voltage	180 V
Rated impulse voltage	1.5 kV
Pollution degree	2
Test voltage U _{r.m.s.}	1.39 kV
Insulation resistance	>10 ¹⁰ Ω
Contact resistance	≤25 mΩ
Limiting temperature	-55 ... +125 °C
Mating cycles	≥500
Clearance distance	≥1.74 mm
Creepage distance	≥1.74 mm PCB ≥1.89 mm Connector
Performance level	1
Mating cycles	≥500
Material (insert)	Liquid crystal polymer (LCP)
Isolation group	IIIa, (175 ≤ CTI < 400)
Colour (insert)	Black
Material (contacts)	Copper alloy
Surface (contacts)	Au over Pd/Ni, Mating side Tin plated, Termination side
Material flammability class acc. to UL 94	V-0

Derating

Current carrying capacity

The current carrying capacity of the connectors is limited by the thermal load capability of the contact element material including the connections and the insulating parts. The derating curve is therefore valid for currents which flow constantly (non-intermittent) through each contact element of the connector evenly, without exceeding the allowed maximum temperature.

Measuring and testing techniques acc. to IEC 60512-5-2

Derating curve 80%

Details

According to IEC 61984, it is an unencapsulated connector. Protection against electric shock must be ensured by the type of installation by the user.

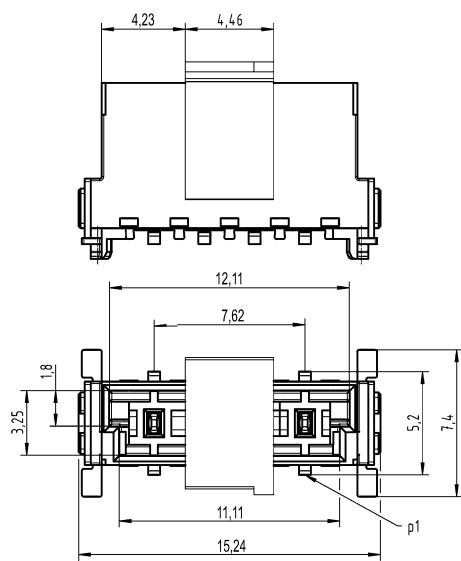

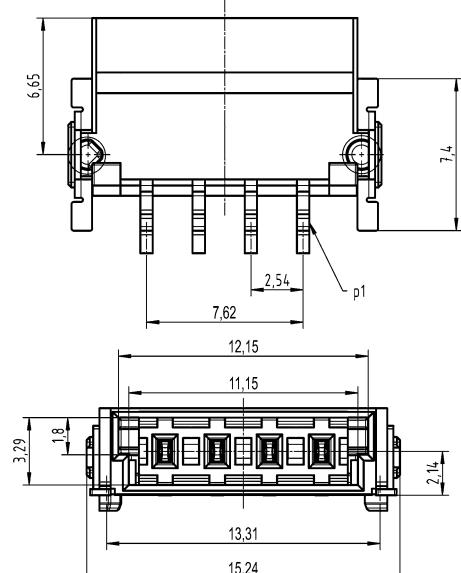

Selection of the performance level

The part numbers shown meet performance level 1 (≥ 500 mating cycles). Other performance levels are available on request.

Female connectors Reflow soldering termination (THR)

PCB

Technical characteristics

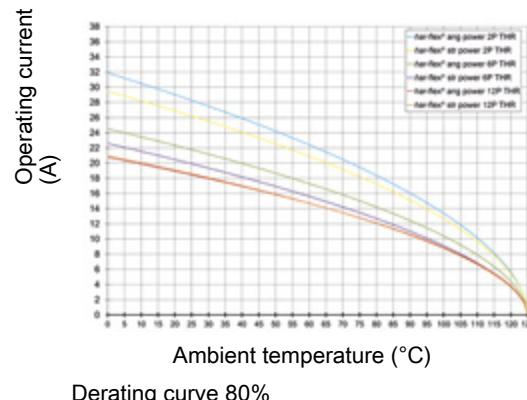

Contact spacing (mating side)	2.54 mm
Stacking height	9.05 mm
Rated current	26.5 A, 20 A, 19 A, 29 A, 22 A
Rated voltage	180 V
Rated impulse voltage	1.5 kV
Pollution degree	2
Test voltage U _{r.m.s.}	0.84 kV
Insulation resistance	>10 ¹⁰ Ω
Contact resistance	≤25 mΩ
Limiting temperature	-55 ... +125 °C
Mating cycles	≥500
Clearance distance	≥0.94 mm
Creepage distance	≥0.94 mm PCB ≥1.89 mm Connector
Performance level	1
Mating cycles	≥500
Material (insert)	Liquid crystal polymer (LCP)
Isolation group	IIIa, (175 ≤ CTI < 400)
Colour (insert)	Black
Material (contacts)	Copper alloy
Surface (contacts)	Au over Pd/Ni, Mating side Tin plated, Termination side
Material flammability class acc. to UL 94	V-0

Derating

Current carrying capacity

The current carrying capacity of the connectors is limited by the thermal load capability of the contact element material including the connections and the insulating parts. The derating curve is therefore valid for currents which flow constantly (non-intermittent) through each contact element of the connector evenly, without exceeding the allowed maximum temperature.

Measuring and testing techniques acc. to IEC 60512-5-2

Details

According to IEC 61984, it is an unencapsulated connector. Protection against electric shock must be ensured by the type of installation by the user.

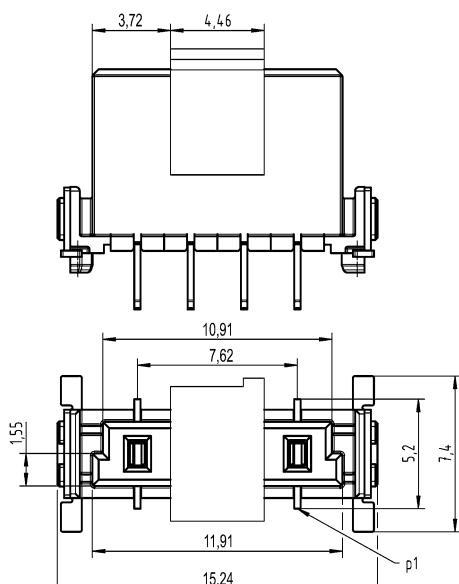

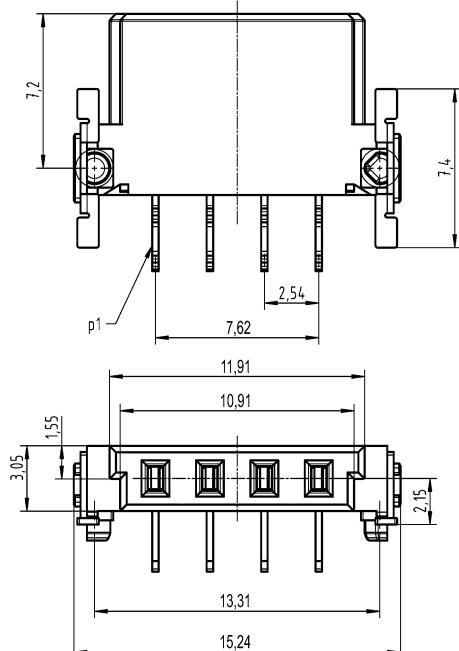

Selection of the performance level

The part numbers shown meet performance level 1 (≥ 500 mating cycles). Other performance levels are available on request.

Ordering samples

09 45 181 2587 XL

Number of contacts

10

Interface

Features

- Miniaturised interface for signals and bus systems in acc. to IEC 61076-3-124 type B, suitable for industrial use
- Robust industrial design
- 360° shielding
- 5000 mating cycles
- Very small and space saving interface

Technical characteristics

Number of contacts	10
Rated current	1.5 A
Rated voltage	50 V AC, 60 V DC
Test voltage U _{r.m.s.}	0.5 kV
Contact resistance	≤30 mΩ
Shielding resistance	≤100 mΩ
Limiting temperature	-40 ... +85 °C
Storage temperature	-30 ... +60 °C
Mating cycles	≥5000
Conductor cross-section	AWG 28/7 ... AWG 22/7 AWG 28/7 ... AWG 26/7 AWG 24/7
Wire outer diameter	≤1.55 mm 0.95 ... 1.05 mm 1.1 ... 1.25 mm
Degree of protection acc. to IEC 60529	IP20
Retention force	≥80 N locking
Cable diameter	5.5 ... 7.2 mm
Insertion force	≤25 N
Withdrawal force	≤25 N
Material (insert)	Polyamide (PA)
Colour (insert)	Black
Material (contacts)	Copper alloy
Surface (contacts)	Au over Ni
Material flammability class acc. to UL 94	V-0

Specifications and approvals

Interface

Number of contacts

4

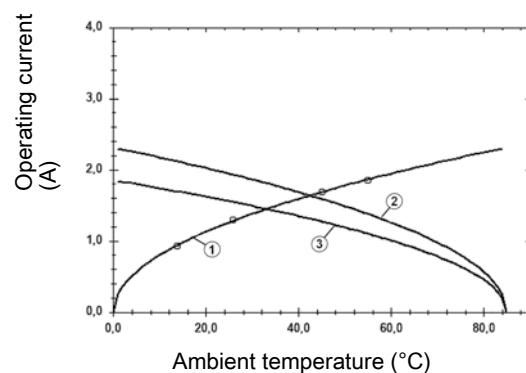

Features

- Very robust full metal housing
- Wide range IDC for solid and stranded wires from AWG 26 to AWG 22
- No side cutter needed anymore – integrated cutting blades behind the IDC contacts cut the wires to the correct length
- Very robust and patent pending cable fixing
- 35° + 90° angled version with variable cable outlet in 4 different cable outlet directions
- Simple mounting
- Suitable for all PoE versions

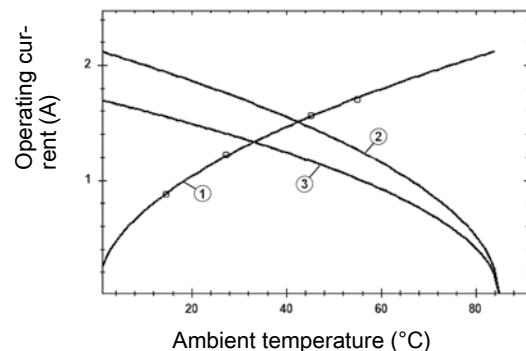

Technical characteristics

Number of contacts	4
Rated current	1.76 A
Rated voltage	50 V AC, 60 V DC
Transmission characteristics	Cat. 5, Class D up to 100 MHz
Data rate	10 Mbit/s, 100 Mbit/s
Test voltage U _{DC}	1 kV (contact-contact) 1.5 kV (contact-ground)
Insulation resistance	> 5 x 10 ⁹ Ω
Contact resistance	≤ 20 mΩ
Contact resistance, shielding	≤ 100 mΩ
Limiting temperature	-40 ... +85 °C
Mating cycles	≥ 750
Conductor cross-section	0.12 ... 0.32 mm ² Stranded 0.12 ... 0.32 mm ² Solid
Conductor cross-section	AWG 26/7 ... AWG 22/7 Stranded AWG 26/1 ... AWG 22/1 Solid
Wire outer diameter	0.8 ... 1.6 mm
Degree of protection acc. to IEC 60529	IP20
Cable diameter	4.5 ... 9 mm
Insertion force	≤ 25 N
Withdrawal force	≤ 25 N
Material (insert)	Polycarbonate (PC)
Material (hood/housing)	Zinc die-cast
Surface (hood/housing)	Nickel plated
Colour (hood/housing)	Silver
Material (contacts)	Copper alloy
Surface (contacts)	Au over Ni, Mating side Tin plated, Termination side compliant with exemption
RoHS

Conductor cross-section	AWG 24 ... AWG 22
Wire outer diameter	1.7 mm
Degree of protection acc. to IEC 60529	IP65 IP67
Cable diameter	6 ... 9 mm
Fixing	Wall mounting
Material (hood/housing)	Polycarbonate (PC) Fibre-glass reinforced
Colour (hood/housing)	Black White
Material flammability class acc. to UL 94	V-0

Identification

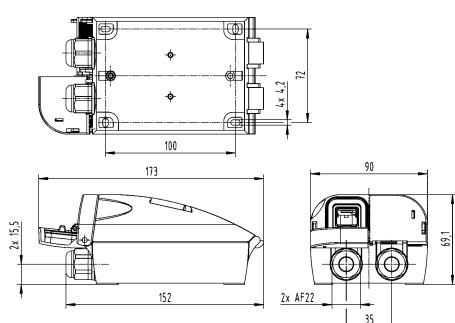

HARTING PushPull (V4),
IDC termination,
Fully shielded, 360° shielding contact,
Outlet,
Black,
Pack contents:
2-port outlet housing with protection caps,
Cable management,
Cable gland,
Label,
2x RJ45 jack,
Dummy plugs,
Assembly instructions

Part number

09 45 845 1562

Interface

Technical characteristics

Limiting temperature	-20 ... +70 °C
Degree of protection acc. to IEC 60529	IP65 IP67
Cable diameter	6 ... 9 mm
Fixing	Wall mounting

Technical characteristics

Material (hood/housing)	Polycarbonate (PC) Fibre-glass reinforced
Colour (hood/housing)	Black

Material flammability class acc. to UL 94

Identification

HARTING PushPull (V4),
Outlet,
Empty,
for fixture of 2x RJ45 female inserts,
Black

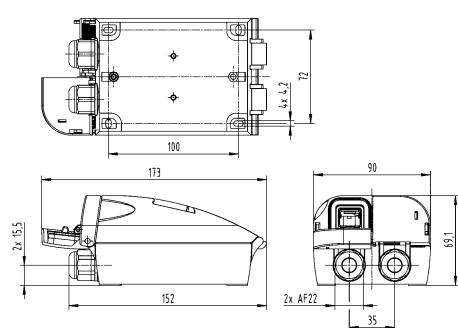

Please order insert separately.

Part number

09 45 845 1560

Drawing (dimensions in mm)

Number of contacts

4

Interface

Technical characteristics

Number of contacts	4
Transmission characteristics	Cat. 5, Class D up to 100 MHz
Limiting temperature	-40 ... +70 °C
Mating cycles	≥750
Conductor cross-section	0.22 ... 0.32 mm ² solid and stranded
Conductor cross-section	AWG 24 ... AWG 22
Wire outer diameter	1.7 mm
Degree of protection acc. to IEC 60529	IP20
Cable diameter	5 ... 9 mm
Material (insert)	Polycarbonate (PC)
Colour (insert)	White Yellow

Technical characteristics

Material (hood/housing)	Zinc die-cast
Surface (hood/housing)	Nickel plated
Material flammability class acc. to UL 94	V-2
RoHS	compliant

Specifications and approvals

DNV GL

Identification

HARTING T1 Industrial® AWG 22 system cables

1x 2x AWG 22/7

HARTING T1 Industrial Overmoulded

HARTING T1 Industrial Overmoulded

Cable

Features

- Internationally standardised mating face acc. to IEC 63171-6
- For the construction of future-proof and standardised Single Pair Ethernet (SPE) communication networks with standardised cabling according to ISO / IEC 11801 and TIA 42
- Designed for industrial applications up to M₃I₃C₃E₃ environmental conditions
- Meets all IEEE 802.3 requirements for SPE
- Robust industrial design with 360° shielding, locking lever protection and high mating cycles
- Suitable for remote power supply for all Power over Data Line (PoDL) classes
- Very flexible, overmoulded cable with a small footprint

Technical characteristics

Number of cores	2
Core structure	1x 2x AWG 22/7
Connector 1	HARTING T1 Industrial Overmoulded
Connector 2	HARTING T1 Industrial Overmoulded
Rated current	4 A
Rated voltage	60 V DC
Transmission characteristics	600 MHz, Bandwidth
Data rate	10 Mbit/s, 100 Mbit/s, 1 Gbit/s
Test voltage U _{DC}	1 kV (contact-contact) 2.25 kV (contact-ground)
Contact resistance	≤20 mΩ
Shielding resistance	≤100 mΩ
Limiting temperature	-40 ... +80 °C unmoved -25 ... +80 °C moved
Mating cycles	≥1000
Degree of protection acc. to IEC 60529	IP20
Material (cable)	PUR (polyurethane)
Colour (cable)	Yellow

Specifications and approvals

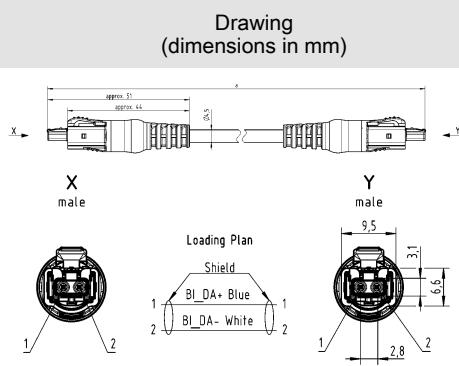

- IEC 63171-6
 IEEE 802.3bu (remote power supply over PoDL = Power over Data Line)
 IEEE 802.3cg (10BASE-T1)

Number of cores	13
Core structure	2x 2 AWG 22 2x 0.75 mm ² 2x 1.5 mm ² 5G 2.5 mm ²
Connector 1	Bulkhead mounted housing, Angled RJ45, Female
Rated current (signal)	10 A
Rated voltage (signal)	250 V
Rated impulse voltage (signal)	4 kV
Pollution degree (signal)	3
Rated current (power)	20 A

Technical characteristics

Rated voltage (power)	400 V
Rated impulse voltage (power)	6 kV
Pollution degree (power)	3
Transmission characteristics	Cat. 5, Class D up to 100 MHz
Cable diameter	16.5 mm
Minimum bending radius	10x Cable diameter, (repeated bending)

Number of contacts

84 Power + 4 Data
Crimp termination
Shielded

Circular

Technical characteristics

Number of contacts	8
Rated current	6 A
Rated voltage	50 V
Rated impulse voltage	1.5 kV
Pollution degree	3
Rated current (data)	0.5 A
Insulation resistance	>10 ⁸ Ω
Contact resistance	≤10 mΩ
Mating cycles	≥100
Locking type	PushPull, Screw locking
Degree of protection acc. to IEC 60529	IP65 / IP67, when mated
Conductor cross-section	0.33 ... 0.82 mm ² , 0.13 ... 0.25 mm ² , 0.08 ... 0.22 mm ²

Technical characteristics

Conductor cross-section	AWG 22 ... AWG 18, AWG 26 ... AWG 23, AWG 28 ... AWG 24
Cable diameter	5.7 ... 8.8 mm
Tightening torque	0.6 Nm
Material (insert)	Polyamide (PA)
Material (hood/housing)	Zinc die-cast
Material (contacts)	Copper alloy
Surface (contacts)	Gold plated
RoHS	compliant with exemption

Specifications and approvals

IEC 61076-2-113

Identification	Conductor cross-section (mm ²)	Part number	Drawing (dimensions in mm)
		Male	Female
Circular connectors M12, M12 Slim Design, Cable connector, Straight, Crimp termination, Shielded, PushPull locking Please order crimp contacts separately.		21 03 861 1830	
Circular connectors M12, M12 Slim Design, Cable connector, Straight, Crimp termination, Shielded, Screw locking Please order crimp contacts separately.		21 03 861 1814	21 03 861 2805
Circular connectors M12, M12 Slim Design, Cable connector, Panel feed through, for rear mounting, Crimp termination, Shielded Please order crimp contacts separately.		21 03 861 1825	21 03 861 2825

Contents	Page	
Charging cable	New 8.2	Auto
Charging socket.....	New 8.8	
Accessories	New 8.9	

Number of phases

320 A
11 kW

Auto

Technical characteristics

Charging mode	Mode 3
Number of phases	3
Number of contacts	7
Number of signal contacts	2
Number of power contacts	5
Contact configuration	Signal: CP, PP Power: L1, L2, L3, N, PE
Termination method	Crimp termination
Core structure	5x 2.5 mm ² + 0.5 mm ²
Connector 1	Type 2 Female, (Vehicle side)
Connector 2	Type 2 Male, (Infrastructure side)
Rated current (signal)	2 A
Rated voltage (signal)	30 V
Rated current (power)	20 A
Rated voltage (power)	480 V
Type of current	AC
Charging power	11 kW
Coding resistance	680 Ω between PE and PP
Conductor resistance @ 20 °C	≤7.98 Ω/km @ 2.5 mm ² ≤39 Ω/km @ 0.5 mm ²
Mating cycles	≥10000
Degree of protection acc. to IEC 60529	IP44
Cable diameter	12.8 mm ± 0.4 mm
Minimum bending radius	9x Cable diameter, (repeated bending)
Insertion force	<100 N
Withdrawal force	<100 N
Ambient temperature	-30 ... +50 °C in operation -40 ... +80 °C storage/transport

Technical characteristics

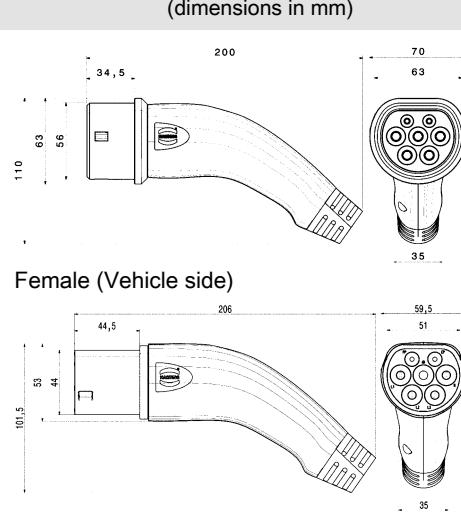

Air pressure	≥540 hPa ≈ 5000 m
Material (insert)	Polyamide (PA)
Colour (insert)	Black
Material (hood/housing)	Polyamide (PA)
Colour (hood/housing)	Black
Material (cover)	Thermoplastic polyurethane (TPU)
Material (contacts)	Copper alloy
Surface (contacts)	Silver plated
Material (cable)	TPE-U
Colour (cable)	Black
Material flammability class acc. to UL 94	V-0
RoHS	compliant with exemption

Specifications and approvals

IEC 62196-2
IEC 62893
VDE
